8:30 am – 12:00 noon
4024 Varnes Conference Center, School of Nursing
University of Kansas Medical Center Campus
Kansas City, Kansas
Program Overview

This program will address current Bethesda classification of thyroid cytology specimens including the latest updates by an expert in the field.

The program will also include a discussion of interesting and challenging pancreatic cytology cases our speaker has come across during practice.

Target Audience

This program is designed for physicians.

Special Thanks to:

Jamie Porter, MD who served as Program Director for this year’s event. Dr. Porter is a graduate of the University of Kansas Medical School, participates in on-campus Pathology educational activities and is on staff at the Kansas City VA Medical Center.

Guest Faculty

Syed Z. Ali, MD, FRCPPath, FIAC
Professor of Pathology and Radiology
Director of the Division of Cytopathology
The Johns Hopkins Hospital and School of Medicine
Baltimore, Maryland

Dr. Syed Ali serves as Professor of Pathology and Radiology at the Johns Hopkins University School of Medicine as well as the Director of the Division of Cytopathology at The Johns Hopkins Hospital. He received his Pathology residency training at North Shore University Hospital in New York with fellowships in Surgical Pathology at the Memorial Sloan-Kettering Cancer Center and Cytopathology at The Johns Hopkins Hospital.

Known as one of the most traveled pathologists, Dr. Ali has well over 260 invited lectures, keynote speeches and visiting professorships. In collaboration with international societies and universities, he directs or co-directs several annual major cytopathology tutorials.

Dr. Ali has published extensively with over 270 articles in major scientific journals, over 30 books, book chapters and electronic media. He is the founding editor-in-chief of the Journal of the American Society of Cytopathology (JASC) and has served as member of the executive board and chair of the scientific program committee and the educational development committee of the American Society of Cytopathology (ASC). He presently serves as the vice president of the ASC and chair of the continuing education committee of the International Academy of Cytology (IAC). He is a fellow of both, the Royal College of Pathologists (UK) and the IAC. He is recipient of the ASC’s “Warren R. Lang Award” in 1996, the “President’s Award” in 2012 and “Excellence in Education Award” in 2015.
